## New in Lina 6.0 Compatibility Guide

The Lina Server is now supported on:

- Windows 2022 Server.
- Alma Linux 9.
- Rocky Linux 9.

The Lina Agent is now compatible with:

- Alma Linux 9.
- Rocky Linux 9.
- MacOS 13 Ventura.

## End of life

CentOS 6 is no longer supported for Linux Servers and Agents. If you are upgrading to Lina 6.0, make sure your Linux OS is at least CentOS 7 for CentOS like distributions.

## Operating systems compatible with the Lina Server

Operating System	Operating System Version	Platform	File system
Linux	Linux kernel 3.10 and above with glibc 2.17 and above	x64 / ARM	Ext4 / XFS
	Red Hat 7 and above	x64 / ARM	Ext4 / XFS
	Fedora 22 and above	x64 / ARM	Ext4 / XFS
	Ubuntu 16.04 and above	x64 / ARM	Ext4 / XFS
	Debian 8.0 and above	x64 / ARM	Ext4 / XFS
	CentOS 7	x64 / ARM (no agent UI, no auto update)	Ext4 / XFS
	CentOS 8	x64 / ARM	Ext4 / XFS
	Alma Linux 8 et 9	x64	Ext4 / XFS
	Rocky Linux 9	x64	Ext4 / XFS
	Windows	Windows Server 2016	x64
Windows Server 2019		x64	NTFS
Windows Server 2022		x64	NTFS

## License Manager

The minimum License Manager version required with Lina 6.0 CR is V1.1.

## Server versus Agent Compatibility

Lina Server Version	Supported Agent Versions
6.0	<ul style="list-style-type: none"><li>• 5.x</li><li>• 6.0 (minimum version for multi-server support)</li></ul>
5.3	<ul style="list-style-type: none"><li>• 5.x</li></ul>
5.2	<ul style="list-style-type: none"><li>• 4.0.4</li></ul>
5.1	<ul style="list-style-type: none"><li>• 3.4</li></ul>
5.0	

## Backed up Agent Data

Microsoft SQL Server on a Windows server can be backed up and restored with Lina in BMR mode only.

USB sticks connected to an agent are not supported.

Cloud synced data: Data accessible on your disk but synchronized on cloud storage (for instance: OneDrive/Dropbox, etc.) is not supported.

# Operating Systems Compatible with the Lina Agent

## Windows

Operating System Version	Platform	Support for BMR
Vista	x86 / x64	No
Windows 7	x86 / x64	Yes
Windows 8	x86 / x64	Yes
Windows 8.1	x86 / x64	Yes
Windows 10	x86 / x64	Yes
Windows 10 S	Not supported	Not supported
Windows 11	x64	Yes
Windows Server 2012 R2	x64	Yes
Windows Server 2016	x64	Yes
Windows Server 2019	x64	Yes
Windows Server 2022	x64	Yes

#### BMR Support information:

- The disk layout of the machine to restore must be compatible with the backed up one (number of disks, space available, etc.).
- BMR is not available if the system is installed on a Dynamic Disk (Dynamic Disks are supported for disks other than the system disk).
- Supported file systems: NTFS, FAT 32. For ReFS support, please refer to the Release Notes issued with each Lina Version.
- Firmware of backed up agent must be the same as the machine to restore on (Bios, EFI, UEFI).

## macOS

Note that the new privacy protection introduced with macOS Mojave requires that you grant Full Disk Access to Lina processes. Information on how to do so is located on the support portal ([support.atempo.com](https://support.atempo.com)).

Operating System Version	Intel Platform	ARM platform
macOS 10.15 (Catalina)	x86 / x64	
macOS 10.16/11.0 (Big Sur)	x86 / x64	ARM AArch64 (Apple Silicon) via emulator Rosetta 2
macOS 10.17/12.0.1 (Monterey)	x86 / x64	ARM AArch64 (Apple Silicon) via emulator Rosetta 2
macOs 13 (Ventura)	x86 / x64	

## Linux

Full desktop integration is supported only with KDE, GNOME2 and GNOME3 environments.

Operating System Version	Platform
Linux kernel 3.10 and above with glibc 2.17 and above	x64 / ARM
Red Hat 7 and above	x64 / ARM
Fedora 22 and above	x64 / ARM
Ubuntu 16.04 and above	x64 / ARM
Debian 8.0 and above	x64 / ARM
CentOS 7	x64 / ARM (no agent UI, no auto update)
CentOS 8	x64 / ARM
Alma Linux 8 et 9	x64
Rocky Linux 9	x64

## Synology NAS

Operating System Version	Supported Processors
--------------------------	----------------------

DSM 7	<ul style="list-style-type: none"><li>• Intel x64 (all models)</li><li>• ARMv7 32-bit</li><li>• ARMv8 64-bit</li></ul>
-------	--

## End of Support Information

### Support Lifecycle

The End of Support (EOS) date is the last date on which Atempo will deliver standard support services for that version/release of a product. EOS means the software is no longer available for download. Customers may continue to install and use the version, but Atempo will no longer keep these versions online.

End of support implies:

- The version is no longer available for download.
- No patch or service pack will be provided for that version.
- Support will no longer open tickets for that version.

## EOS Policy

Atempo end of support policy is triggered on major/minor releases only. As a general rule, we support two major/minor versions in parallel.  
 Example: Lina 4.0.3 – 4=major, 0=minor and 3=service pack.

Whenever a new version is released, the n-2 version remains supported for a period of 3 months.

**Note:** Within a minor version, fixes/patches are only delivered in the latest service pack for that version. For instance, if the service pack V5.1.4 has already been released, new fixes are only delivered in version V5.1.5, they are not back ported in earlier V5.1 service packs.

Lina Version	Release Date	End of Support Date
6.0	July 2022	TBD
5.3	December 2021	TBD
5.2	April 2021	September 2022
5.1	September 2019	June 2022
5.0	May 2019	November 2021

## Certified Applications Compatible with the Lina Agent

Vendor	Software Application
Microsoft	<ul style="list-style-type: none"><li>• EFS</li><li>• Defender</li><li>• BitLocker</li></ul>
PRIM'X	ZoneCentral <sup>1</sup>

Support policy for Lina with encryption solution:

- Atempo does not run specific certification for Lina on encryption software other than the application listed above.
- Lina does not interfere with encryption software. Hence as long as the encryption software does not change any Windows API semantic and particularly Windows snapshots (VSS), backup APIs and Windows privilege mechanisms, it should run with Lina without any problems.
- The use of non-certified third-party software such as these encryption solutions does not void the maintenance agreement; however Atempo will not be responsible if an issue is due to the third party software.

---

<sup>1</sup>Contact your Atempo representative for detailed configurations.

## Browser Compatibility

For all interfaces, the minimum resolution supported by Lina is 1280x800.

Interfaces	Browser	Version
<ul style="list-style-type: none"><li>Lina Administration Console</li><li>Lina Agent</li><li>Web restore</li></ul>	<ul style="list-style-type: none"><li>Edge</li><li>Firefox</li><li>Safari</li><li>Chrome</li></ul>	Up-to-date version

---

## Language Availability

Interfaces	Language
<ul style="list-style-type: none"><li>Lina Administration Console</li><li>Lina Agent</li><li>Web restore</li></ul>	<ul style="list-style-type: none"><li>English (United States)</li><li>French</li></ul>
